## A GREAT NAVAL BATTLE.

# Few Hours.

Schley Will Reinforce Sampson in Time to Take Part.

THE EXACT LOCATION OF THE BATTLE SCENE IS NOT KNOWN.

Washington, D. C. May 14.-If Sampson or Schley succeeds in meet ing the Spaniards at sea a battle royal will result. If the Spanish admiral obtained information at Fort De France in regard to fhe location of Sampson's fleet he is probably now heading directly to Cuba. He has decided advantage over the American fleet in such a movement. If the Spanish vessels have continued due west, or even west by northwest, since they were signaled west of Martinique they are now about 150 miles in a straight line from San Juan. If they are bent on reaching Cuba, either by the channel between Haiti and the island or by the Yucatan channel at the west end of Cuba, it will probably beimpossible for Sampson to intercept them. If the American admiral learned promptly enough, however, of the whereabouts of the Spanish fleet he may be able scend upon it by way of the Mona passage between Porto Rico and Haiti, though this is improbable. It will be a hard race also between the flying squadron and the Spanish warships if the former undertaken to reach Cuba in advance of the enemy's arrival.

### To Send the Solace to the Scene,

The navy department expects to know definitely to-morrom where the engagement will take place, and the ambulance ship Solace will be promptly dispatched from Key West to that vicinity to render first aid injured, the chances being that the mortality will be heavy. Th naval war board is confident that the Spanish armored squadron will reach Santiago de Cuba Saturday night and every effort is being made to assemble a strong American naval force in that vicinity by Sunday. By that time Commodore Schley, now bound due South on the Panama mail route, should reach Cape Maysi in the Windward passage, The Spaniards are believed to need coal very badly and since the bombard ment of San Juan de Puerto Rico, their shortest and safest run for fuel, that first essential of naval warfare, is Santiago, 1,000 miles away. Commodore Schley's squadron started at least twenty hours later and has barely more than 900 miles to run.

### Lieut, Southerland in a Fight,

Key West, Fla., May 14 .- (Special.) In the engagement off Cienfugor on Wednesday between the Marblehead, Nashville and an auxiliary gunboat and several thousand Spanish troops, one seaman of the Mar blehead was killed, six severely wounded and a number of other Amer icans were slightly wounded.

Three of the wounded Americans are likely to die. Many Spaniards were killed or wounded. The wounded Americans were brought here this morning. The man killed on board the Marblehead was named Herman Regan.

John Davis, of 640 Twenty-fifth street, New York,

John J. Doran, of 44 Spring street, Fall River.

Robert Boltz, (of the Nashville).

Herman W. Hochneister.

All but Boltz belong to the Marblehead.

None of the ships was damaged to any extent.
The object was to cut the cable and this was accomplished.
After cutting the cable the American ships turned their fire on the light-house and the improvised fort was blown to pieces. were great numbers of Spaniards in and behind the fort at the time there is no doubt that many of them were killed.

The Marblehead and the Nashville used their heaviest guns, a well as the small rapid-fire guns, and hundreds of shots were thrown in-

to the Spanish troops.

Commander Washburn Maynard, of the Nashville, was slightly wounded by a spent bullet.

A few days ago there was another of exchange shots.

The Spanish ship, Galatea, went outside the harbor to engage th United States anxiliary gunbat Eagle, Commander W. H. H. Souther land, a vessel about one-third the Galatea's size. The engagement was short, sharp and decisive. One of the Eagle's six-pound shells splinter ed the corners of the Galatea's deck-house, and the Spanish cruise quickly retreated juto the harbor.

Heavy Loss of Life and Property In Shelling of San Juan.

> CUTTING CABLES TO PREVENT BLANCO COMMUNICATING WITH SPAIN .--- THIS DONE INVASION WILL BEGIN,

WASHINGTON, D. C., May 14,-(Special.)-Definite official information that the Spanish fleet is at the island of Curocoa, one of the Dutch West Indies off Venezuela caused excitement because of the evident purpose to evade Sampson's fleet and reach Cuba. The French cable extends to Curocoa thence to Haiti, Porto Rico and Cuba, thus enabling the Spanish fleet to communicate with Havana and Madrid.

An order has been issued by the Navy Department not to give out anything about the movements of the American fleets, squadrons or ships. The Department will not state where Sampson is now.

The safety of the Oregon is now assured, as it has passed beyond reach of the Spanish fleet.

It is believed that Sampson's fleet as well as Schley's squadron has been dispatched to intercept the Spanish fleet.

The Government gave an immense order for armor and shells for ast defenses to-day. More transports were also chartered and several

The result of the engagement at San Juan, so far as is indicated by official reports, was not altogether satisfactory, inasmuch as one of the principal objects of the expedition was the burning of the large quantity coal stored there for use of the Spanish fleet.
